

Question : Demonstrate Dijkstra's algo.

Ans :

code :

```

```

```
    def init__init__(self, vertices):
```

```
        self.V = vertices
```

```

                       for row in range(vertices)]
```

```
    def printSolution(self, dist):
```

```
        print("Vertex \t Distance from source")
```

```
        for node in range(self.V):
```

```
            print(node, "\t", dist[node])
```

```
